Civilian Secretariat for Police Service: Building a South Africa where all people

- live in safe environments;
- play a role in creating and maintaining a safe environment;
- feel and are safe from crime, violence and conditions that contribute to it; and
- have equal access and recourse to high quality services when affected by crime and violence.¹

LIST OF DEFINITIONS

Crime and Violence

What constitutes 'crime' is defined in South Africa's common and statutory law. Violence is defined in broad developmental terms by the World Health Organisation as 'the intentional use of physical force or power, threatened or actual, against oneself, another person, or against a group or community that either results in or has a high likelihood of resulting in injury, death, psychological harm, mal-development, or deprivation.'²

Crime Prevention through Environmental Design

Crime Prevention through Environmental Design aims to reduce the causes of, and opportunities for, criminal events, and to address the fear of crime by applying sound planning, design and management principles to the built environment.³

Crime and Violence Prevention

The concept of 'prevention' derives from the notion that crime and victimisation are driven by many causal and/or underlying factors that are the result of a wide range of circumstances and factors that influence individuals, families, local environments and the situations and opportunities that facilitate victimisation and the perpetration of crime.

Crime Prevention is defined by the United Nations Guidelines for the Prevention of Crime (2002) as '[comprising] strategies and measures that seek to **reduce the risk** of crimes occurring and their potential harmful effects on individuals and societies, **including fear of crime**, by intervening to influence their **multiple** causes.'

The World Health Organisation (WHO) defines violence prevention to include strategies addressing underlying causes, individual enrichment programmes during childhood, training for parents on child development, strategies within the community such as increasing the availability of childcare facilities and strategies addressing societal factors such as the availability of alcohol.⁴

Gender-based Violence (GBV)

Gender-based violence, according to the United Nations, 'is considered to be any harmful act directed against individuals or groups of individuals on the basis of their gender. It may include sexual violence, domestic violence, trafficking, forced/early marriage and harmful traditional practices.'⁵

Resilience

‘Resilience is the capacity to successfully adapt despite challenging or threatening circumstances. Strategies aimed at preventing crime and violence must include mechanisms to build the capacity of individuals, groups and communities to deal with adversity and conditions that may make them more vulnerable to crime and violence.’⁶

Safety

The National Development Plan (NDP) states that ‘safety should be measured by the extent to which the most vulnerable in society feel and are safe from crime [and violence] and the conditions that breed it.’ Safety refers principally to the state of an area and is determined based on the real and perceived risk of victimisation. ‘Unsafety’ therefore refers to areas characterised by the significant prevalence of violence and crime.’⁷

Safety through Environmental Design

Safety through Environmental Design (STED) integrates Crime Prevention through Environmental Design (CPTED) approaches and methodologies. The terminology of ‘safety’ is used to ensure consistency with the White Paper, which advocates a holistic approach to safety by addressing all factors that contribute to risk or build resilience in promoting safety (including but not limited to crime).⁸

Security

Security, as defined in the National Security Strategy of South Africa 2013, refers to the ‘maintenance and promotion of peace, stability, development and prosperity using state power. It also involves the protection of our people and their being free from fear and want; and the preservation of the authority and territorial integrity of the state.’

The definition of security has been extended to encompass not only physical, but ‘human’ security which includes social, economic and political aspects of security. This refers to ‘the protection of vital freedoms, which relate to the freedom from critical and pervasive threats and situations, building on their strengths and aspirations. It also means creating systems that give people the building blocks of survival, dignity and livelihood. Human security connects different types of freedoms – freedom from want, freedom from fear and freedom to take action on one’s own behalf.’⁹

Sexual Violence

Sexual violence is a form of gender-based violence and encompasses any sexual act, attempt to obtain a sexual act, unwanted sexual comments or advances, or acts to traffic, or otherwise directed against a person’s sexuality using coercion, by any person regardless of their relationship to the victim, in any setting. Sexual violence takes multiple forms and includes rape, sexual abuse, forced pregnancy, forced sterilisation, forced abortion, forced prostitution, trafficking, sexual enslavement, forced circumcision, castration and forced nudity.¹⁰

Socio-ecological Model

The socio-ecological model recognises that violence results from a combination of multiple influences that interact with each other in different ways. Individuals are located in relation to their family, community and the broader environment. Accordingly, this model considers the multiplicity of factors that put people at risk and that need to be addressed in order to protect individuals from experiencing or perpetrating violence – referred to as ‘protective factors’. Prevention strategies must, therefore, address risk and protection factors specific to different stages of a person’s life and development in order to increase safety, as each level of human development is associated with different, and often overlapping, sets of risk factors.¹¹

Violence against Women (VAW)

Violence against women (VAW) is defined by the United Nations as: ‘any act of gender-based violence that results in, or is likely to result in, physical, sexual or psychological harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or in private life.’¹²

Vulnerable Groups

Vulnerable groups are those at greater risk of exposure to crime and violence due to structural, cultural, identity or status factors, and lack of or limited access to information, resources, services or remedies. There is no closed list of vulnerable groups. A determination of vulnerability will vary from context to context, and community to community. Vulnerability is influenced by fluctuating social, political and economic considerations. An analysis of vulnerability must take into consideration both those at risk of being victims and/or perpetrators, and recognise the intersectionality of conditions which render some people more vulnerable than others, even within an identified group.

The purpose of determining vulnerability is to inform the nature and focus of interventions required to reduce crime and violence. Persons with disabilities, the elderly, women and children, and members of the Lesbian, Gay, Bisexual, Transgender, Intersex, Queer, Asexual, Plus (i.e. other diverse sexual orientations and gender identities) community (the LGBTIQ+ community), foreign nationals, sex workers, the homeless and young men are some of the groups that are particularly vulnerable to crime and violence, and discrimination.

The National Development Plan (NDP) makes explicit reference to, and underscores the need to address, the safety of both women and children in South Africa. The way that women and children experience safety must also be understood within the context of the spaces – social, physical and economic – that they occupy. Because of the nature of sexual and gender-based violence (GBV), these acts are often hidden and go unreported. The hidden nature of these acts of violence also often preclude victims from accessing adequate, or any, health or criminal justice services. Negative experiences can further marginalise victims, and can exponentially increase negative health and educational outcomes, both for the individuals and their families. It is therefore essential that, when examining and assessing safety at a community level, the voices of both women and children are heard, and that policies and strategies are informed by these voices.

Persons with disabilities face a double burden and are at much higher risk of violence than their non-disabled peers. Research indicates that children with disabilities are two to five times more likely to be abused than their non-disabled peers, and studies also show that their vulnerability to sexual assault is higher when they live in institutions. Children with intellectual impairments appear to be among the most vulnerable, being 4.6 times more at risk of sexual violence than their non-disabled peers. In respect of adults, overall, persons living with disabilities are 1.5 times more likely to be victims of violence, while those with mental health conditions are nearly four times more likely to experience violence.

Older persons are also particularly vulnerable to crime, due to their age, infirmity, personal and socio-economic circumstances. This includes the intentional or reckless infliction of pain or injury, sexual violence, unreasonable confinement, theft and extortion, and the deprivation of food, shelter and health care.

LGBTIQA+ people are prone to discrimination, persecution and violence. Safety strategies need to acknowledge and address societal attitudes and recognise that different factors impact on LGBTIQA+ persons' vulnerability based on individual context and circumstance.

Foreign nationals are also a highly vulnerable group, evident in vigilante and xenophobic attacks which have been prevalent in South Africa for decades. Lack of local support structures and family protection, as well as barriers in accessing support services, result in migrant women and children being disproportionately affected by violence.¹³

1 BACKGROUND

The National Development Plan sets out a vision for safer communities, recognising the need to address the drivers of crime and violence and acknowledging that crime and violence are not the sole responsibility of the police (Chapter 12, NDP 2030). The White Paper on Safety and Security (2016) gives expression to the proposals of the National Development Plan by setting out an overarching framework for integrated action to prevent crime and violence. This Strategy draws on the White Paper to set out a clear plan for implementation of an integrated ‘all of society’ and ‘all of government’ approach to crime and violence prevention.

1.1 Approach of the Strategy

The Strategy is informed by a developmental life course approach which builds on the socio-ecological model espoused by the World Health Organisation. This approach takes into account the full context and cumulative impact of risk factors to crime and violence on a person’s life, including individual, community and structural, environmental, developmental, cultural and social dimensions. It recognises the immediate and secondary factors that make individuals (from the time they are conceived) vulnerable to violence. The socio-ecological model recognises that violence results from a combination of multiple factors that put people at risk (their risk factors), or which protect them (their protective factors) from experiencing or perpetrating violence. It further acknowledges factors that contribute to building resilience.

This approach requires interventions at a primary level (for the general public), secondary level (for those regarded as being ‘at risk’ of offending or of criminal victimisation), and tertiary level (for those who have already succumbed to criminality or victimisation).

The Strategy advocates an integrated and developmental approach, with evidence-based planning and implementation.

3 STAKEHOLDER ENGAGEMENT

The White Paper on Safety and Security and Draft Implementation Framework have been through a process of engagement with relevant stakeholders. This Strategy is informed by these two policy instruments.

4 SITUATIONAL ANALYSIS

Crime and violence in South Africa is a developmental issue with social and economic drivers and consequences. The cost of crime and violence is both direct and indirect.¹⁴ The direct costs of crime are exponential and include expenditure on policing, prosecution, the judicial and the correctional system, health and social service expenditure, and private security. The indirect costs are both economic and social. Economic costs arise from higher mortality and morbidity rates which impact on human capital and labour force participation, lower wages and income, savings and macro-economic growth. The social effects including the erosion of social capital, inter-generational transmission of violence, lower quality of life and poor educational and skills outcomes.

In order to systematically address crime and violence, a whole-of-government and whole-of-society approach is required. Law enforcement efforts must be supported by strategies that address the drivers of crime and violence in order to be effective and achieve sustainable results. Crime and violence prevention is a key component in efforts to achieve sustainable economic growth and human development.

In order to be effective, crime and violence prevention strategies must be aligned and resourced with capacitated implementation mechanisms and functional, effective intergovernmental cooperation. Programmes and interventions must be integrated, coordinated and evidence based, with active civil society and community participation.

Programmes and interventions must address both **risk and protection factors** at different stages of a person's life and development; be **context appropriate**; and address **vulnerable and at-risk groups**.

5 STRATEGIC INTENT

The purpose of this Strategy is to provide a coordinated and integrated plan to prevent crime and violence in South Africa. The Strategy complements other interventions that respond to crime and violence, such as improvements to policing and strengthening of the criminal justice system.

This Strategy advocates a collective and collaborative relationship between state and non-state actors in promoting safety. The Strategy addresses all relevant stakeholders within the three tiers of government, community, civil society and the private sector.

The scope and application of this strategy is informed by constitutional and legal prerequisites applying to intergovernmental relations and the competencies and mandates of state institutions.

The strategy focuses on the following **six pillars** from the 2016 White Paper on Safety and Security:

PILLAR 1: AN EFFECTIVE CRIMINAL JUSTICE SYSTEM

- A. An efficient, responsive and professional criminal justice sector
- B. Effective rehabilitation and reintegration programmes
- C. Effective restorative justice programmes and interventions

PILLAR 2: EARLY INTERVENTION TO PREVENT CRIME AND VIOLENCE AND PROMOTE SAFETY

- A. A healthy start for infants and children, including the first 1000 days of life, preschool and school children, and their parents, caregivers and guardians
- B. A safe and supportive home, school and community environment for children and youth
- C. Context-appropriate child and youth resilience programmes
- D. Substance abuse treatment and prevention
- E. Context-appropriate interventions for vulnerable/at risk groups

PILLAR 3: VICTIM SUPPORT

- A. The design of a comprehensive framework promoting and upholding the rights of victims of crime and violence
- B. Comprehensive services delivered to victims of crime and violence

PILLAR 4: EFFECTIVE AND INTEGRATED SERVICE DELIVERY FOR SAFETY, SECURITY AND PREVENTION OF VIOLENCE

- A. Access to comprehensive crime and violence prevention and safety and security services
- B. Professional and responsive service provision

PILLAR 5: SAFETY THROUGH ENVIRONMENTAL DESIGN

- A. The integration of safety and CPTED (crime prevention through environmental design) into rural and urban design, planning, development and upgrading

PILLAR 6: ACTIVE PUBLIC AND COMMUNITY PARTICIPATION

- A. Sustainable forums for co-ordinated and collaborative action on community safety
- B. Public and Community Participation in Development, Planning and Implementation of Crime and Violence Prevention Programmes and Interventions
- C. Public and Private Partnerships to Support Safety and Crime and Violence Prevention Programmes and Interventions

7 KEY PRINCIPLES

This Strategy is underpinned by the following principles:

8 CRITICAL SUCCESS FACTORS/SYSTEM LEVEL REQUIREMENTS

The following elements are essential for the success of the Strategy:

8.1 Strengthen Legislation and Policy for Crime and Violence Prevention

In order to ensure the effective alignment and integration of the Strategy across government, the following elements need to be addressed:

- Improve policy coherence and alignment of strategies dealing with crime and violence prevention.
- Strengthen the legal and regulatory framework for community safety.
- Integrate crime and violence prevention into the Medium-Term Strategic Framework (MTSF).
- Improve intergovernmental cooperation to facilitate policy alignment and integrated implementation.
- Align monitoring and evaluation systems and reporting mechanisms across all spheres of government to improve performance and accountability.
- Strengthen reporting mechanisms.

8.1.1 IMPROVE POLICY COHERENCE

OBJECTIVE	MECHANISMS
i. Align national policy to effectively address community safety, crime and violence prevention.	<ul style="list-style-type: none"> ■ Early intervention to prevent crime and violence integrated into education, health, social development and economic development policies. ■ Aligning policies addressing violence against women, children and vulnerable groups (VAWCVG). ■ CPTED principles integrated into policy frameworks addressing the built environment, including land use, spatial planning and human settlements (including township upgrading initiatives and economic development). ■ Strengthening the policy framework for participation of civil society and improving the funding model for the non-profit sector.
ii. Strengthen intergovernmental relations (IGR) and functioning of IGR forums.	<ul style="list-style-type: none"> ■ IGR mechanisms can facilitate the alignment of national and provincial policy with local government by strengthening processes and mechanisms of engagement and consultation.
iii. Clarify local government's community safety mandate and the roles of national and provincial government in supporting local government.	<ul style="list-style-type: none"> ■ The development of guidelines establishing the role of local government in community safety, crime prevention and violence prevention; key performance indicators (KPIs) for IDPs; and the role of national and provincial government in supporting local government.

8.1.2 STRENGTHEN THE LEGAL AND REGULATORY FRAMEWORK FOR CRIME AND VIOLENCE PREVENTION

The development of legislation and regulations clarifying legal obligations and mandates in respect of safety, crime prevention and violence prevention will provide greater direction and authority for policy directives set out in the Strategy.

OBJECTIVE	MECHANISMS
8.1.2.1 Clarify the role of local government in community safety.	<p>Development of guidelines/regulations to address the mandate of local government in respect of community safety. Develop key performance indicators for IDPs, addressing:³⁸</p> <ul style="list-style-type: none"> ■ The requirement that community safety planning is a core pillar/strategic focus area of the IDP and is integrated into all strategic priority areas and plans. ■ The development of municipal community safety plans. ■ Criteria for the integration of community safety into IDPs. ■ Legislative and policy sector service requirements for community safety. ■ Location and accountability for implementation of the Strategy. ■ Monitoring and evaluation systems across municipality that address progress and impact. ■ Institutional arrangements for: <ul style="list-style-type: none"> ■ community safety interventions ■ community participation and engagement mechanisms ■ stakeholder management processes ■ partnerships with civil society and community-based organisations (CBO) ■ Resources and institutional capacity are needed to implement the Strategy, including in the relationship between different spheres of government in respect of community safety.³⁹ ■ Strengthen intergovernmental forums at provincial and local level dealing with community safety (s47 of the IGRF Act).
8.1.2.2 Clarify the responsibilities of provinces and strengthen relationship with provinces.	<ul style="list-style-type: none"> ■ Clarify the role of provinces (Office of the Premier and DCoG) in facilitating intergovernmental relations in respect of community safety. ■ Clarify the roles and responsibilities of different departments and stakeholders in respect of community safety, crime prevention and violence prevention and relationship to local government. ■ Clarify provincial support, oversight and monitoring: ■ Guidelines should address <ul style="list-style-type: none"> ■ The strengthening of provincial support (DCoG and provincial departments, including community safety departments and provincial secretariats) for developing community safety focus in IDPs (the type of support, as well as how support is rendered through instruments such as MOUs and protocols). ■ The nature of assistance and support to be provided to local municipalities by provinces and respective departments in provinces, including but not limited to the roles of the Office of the Premier, departments responsible for local government, provincial departments including community safety, safety and liaison, and provincial secretariats. ■ The implementation of monitoring and evaluation systems and reporting requirements in respect of safety, crime prevention and violence prevention initiatives between province, district and local municipalities. ■ Responsibility for facilitating and sourcing of funding and resources for local government. ■ The implementation of monitoring and evaluation systems and reporting requirements in respect of safety, crime prevention and violence prevention initiatives between province, district and local municipalities.
8.1.2.3 Develop model by-laws on community safety, crime and violence prevention to guide local government.	<ul style="list-style-type: none"> ■ Provision is made in the legislative framework for the national minister responsible for provincial and local government and the Member of the Executive Council (MEC) responsible for local government in the province to draft by-laws (s 14 (1) and 14 (2) LGMS Act). ■ Model by-laws can facilitate implementation of the Strategy and address CPTED principles, management of public spaces and safety in communities (e.g., by addressing issues of gun-free zones; sale of alcohol; location and hours of operation of shebeens/taverns and their proximity to schools and child care facilities); and the built environment (Section 14(1) and (14)(2) LGMS Act). ■ Municipalities have the power to make and administer by-laws (s156 (2) Constitution). In executing this function, they regulate and manage conduct and behaviour, impacting on crime and violence prevention through the development and enforcement of by-laws, including social behaviour in public spaces, land use zoning, spatial design of the built environment, and management of public spaces, which directly impact on safety and crime prevention.⁴⁰
8.1.2.4 Clarify the role of the Civilian Secretariat for Police and Provincial Secretariats in respect of crime and violence prevention.	<ul style="list-style-type: none"> ■ Strengthen the Civilian Secretariat for Police Service Act regulations to clarify obligations of the CSPS and provincial secretariats in respect of community safety. ■ Regulations should be strengthened to address the role and functions of the CSPS and Provincial Secretariats in respect of crime and violence prevention including: <ul style="list-style-type: none"> ■ their role in facilitating intergovernmental relations; ■ the nature of assistance and support to be provided to local municipalities; and ■ the implementation of monitoring and evaluation systems and reporting requirements in respect of safety, crime prevention and violence prevention initiatives between provincial secretariats and CSPS.

8.1.2 STRENGTHEN THE LEGAL AND REGULATORY FRAMEWORK FOR CRIME AND VIOLENCE PREVENTION

The development of legislation and regulations clarifying legal obligations and mandates in respect of safety, crime prevention and violence prevention will provide greater direction and authority for policy directives set out in the Strategy.

OBJECTIVE	MECHANISMS
8.1.2.5 Strengthening the legal framework for provision of victim services, care and support.	(Set out in Pillar 3: Victim Support.)
8.1.2.6 Strengthen the legal framework to prevent gun violence.	(Set out in Pillar 2: Early Intervention to Prevent Crime and Violence and Promote Safety.)
8.1.2.7 Strengthen the legal framework for adult diversion services.	(Set out in Pillar 1B: An Effective Criminal Justice System: Diversion, Rehabilitation and Reintegration Programmes.)
8.1.2.8 Strengthen the legal framework for Restorative Justice.	(Set out in Pillar 1C: An Effective Justice System: Restorative Justice Programmes and Interventions.)
8.1.2.9 Strengthen the legal framework to address Gender Based Violence.	(Set out in Pillar 1A, Section 4: An Effective Justice System: Strategies addressing violence against women and children, and vulnerable groups.)
8.1.2.10 Review legislation to deal with criminal justice responses to substance abuse.	(Set out in Pillar 2D, section 2.2: Early Intervention: Accessible, effective, substance abuse treatment and prevention.)

8.1.3 INTEGRATE THE STRATEGY OUTCOMES INTO THE MEDIUM-TERM STRATEGIC FRAMEWORK (MTSF)

OBJECTIVE	MECHANISMS
Provide policy coherence and streamline strategic objectives of government departments in respect of community safety.	<ul style="list-style-type: none"> The critical success factors/system-level requirements and pillars of the Strategy, with their various thematic areas, should form the basis for development of the indicators of community safety in the MTSF to ensure effective institutionalisation of the Strategy in government planning.

8.1.4 INTEGRATE INTERGOVERNMENTAL COOPERATION TO FACILITATE POLICY ALIGNMENT

OBJECTIVE	MECHANISMS
Strengthen IGR Forums.	<ul style="list-style-type: none"> The alignment of policy and strategy to facilitate this must be driven through the various IGR forums responsible for facilitating intergovernmental cooperation and the alignment of policy at a national level between national departments. <p>The strengthening of systems for coordination and cooperation, through development of clear terms of reference and effective oversight of the Strategy in these forums, will assist with greater alignment of policy and strategy across government.⁴¹</p>

8.1.5 ALIGN MONITORING AND EVALUATION SYSTEMS ACROSS GOVERNMENT

OBJECTIVE	MECHANISMS
Align strategic planning and reporting frameworks across national, provincial and local government.	<p>The Strategy seeks to institutionalise responsibilities within sector departments and spheres of government, creating ownership by integrating interventions into strategic planning processes to ensure that they become core business and not 'add-ons.' This ensures that crime and violence prevention interventions are integrated into strategic planning and budgetary processes, monitoring and evaluation systems, and accountability and reporting frameworks.</p> <p>However, this process requires a commitment from all spheres of government. The autonomy of different spheres of government requires that such processes be endorsed and supported by relevant executive authorities (in the case of provinces, the provincial executive, and at the local level, the municipal council). Strengthening intergovernmental consultation is therefore key to securing buy-in.</p> <ul style="list-style-type: none"> This can be achieved by aligning monitoring and evaluation systems across DPME, the Office of the Premier, province and local government. DPME is well located to facilitate and monitor alignment of policy and strategic planning. Strengthen oversight and compliance with strategic planning, implementation and reporting requirements through performance management. Integration into review of functions of the Auditor General will further contribute to institutionalisation.

8.1.6 STRENGTHEN REPORTING MECHANISMS

OBJECTIVE	MECHANISMS
Effective monitoring and evaluation of implementation	<p>Provide clear reporting systems to monitor and evaluate implementation by:</p> <ul style="list-style-type: none"> ■ ensuring clear linkages between KPIs across national and provincial departments and local government IDPs to enable coherent reporting on implementation and community safety outcomes; ■ defining reporting arrangements between local and district/metro municipalities and provinces; ■ aligning IDPs, municipal safety plans and Provincial Safety Strategies; ■ developing performance indicators for community safety that address and incentivise integrated planning and implementation; ■ ensuring that strategic plans are aligned to the monitoring framework developed by the government department responsible for planning, monitoring and evaluation; ■ integrating compliance with strategic planning requirements, implementation and reporting frameworks in the scope of review of functions of the Auditor General; and ■ integrating obligations into performance management instruments and agreements at a departmental and individual level.

8.2 Align Strategies Addressing Crime and Violence Prevention

8.2.1 INTEGRATE AND MAINSTREAM APPROACHES TO COMMUNITY SAFETY ACROSS GOVERNMENT

OBJECTIVE	MECHANISMS
Ensure consistency in focus on crime and violence prevention.	Each government department and sphere should develop and align its approach addressing community safety, crime prevention and violence prevention with the Strategy – addressing early, secondary and tertiary interventions (set out in the thematic areas of each Pillar).

8.2.2 INTEGRATE STRATEGIC PLANNING ACROSS THREE SPHERES OF GOVERNMENT

Align strategies on community safety, crime prevention and violence prevention between national, provincial and local spheres.	<p>To realise the whole-of-society approach, every line function department, as well as every provincial and local sphere of government, must align its strategic plans and annual performance plans to the outcomes of the Strategy.</p> <p>The White Paper on Safety and Security 2016 advocates a 'bottom up' approach and emphasises the importance of provincial and national strategic priorities being informed by local needs and priorities. Central to this process is the requirement of ensuring that needs assessments of local communities through local government are integrated into provincial strategic plans, and that provincial needs and priorities inform national strategic planning and frameworks. The strategy development process must therefore ensure that departments do not act in silos. The provision of services and delivery of programmes must be maintained through an integrated planning process to ensure integrated service delivery.</p> <p>This can be facilitated by ensuring the following:</p> <ul style="list-style-type: none"> ■ Strategies on community safety, crime prevention and violence prevention are aligned between national, provincial and local spheres. ■ Key performance indicators of national, provincial and local government are aligned to indicators of the Strategy. ■ Strategic plans of line function departments integrate community safety, crime prevention and violence prevention and are aligned to the Strategy. ■ Strategic plans are supported by implementation plans with clear time frames. ■ Provincial strategies and strategic plans integrate community safety, crime prevention and violence prevention and are aligned to the Strategy, which means that <ul style="list-style-type: none"> ■ the Strategy is integrated into provincial strategies at highest level; ■ provincial safety strategies are linked to district and local municipalities' IDPs; ■ key provincial strategies articulate a clear vision, strategic objectives, and indicators for community safety aligned to the Strategy; ■ strategy outcomes are integrated into reporting and monitoring mechanisms of the province and the province's programme of action. ■ Local government at the metro, district and municipal levels incorporate the Strategy's safety outcomes into their IDPs.

8.3 Allocate Sufficient Budgets and Resources to Community Safety, Crime Prevention and Violence Prevention

8.3.1 BUDGET AND RESOURCE ALLOCATION

OBJECTIVE	MECHANISMS
Dedicated budgets and resources are allocated to support implementation of the Strategy.	<ul style="list-style-type: none"> Strategies and plans must be costed and supported by resource allocation plans. Address cross-sectoral issues and disjuncture between financial budgeting and sectoral planning. <ul style="list-style-type: none"> Efforts to mobilise alternative sources of funding and resources need to be integrated into strategic planning processes. KPIs in strategic plans must be linked to outputs, which are matched to expenditure. Funding models for the NPO sector must address full costs of programmes. Community safety, crime prevention and violence prevention focus must be mainstreamed into existing capacity development initiatives across government. <p>Given the current fiscal environment, alternative sources of funding and support should be explored to support implementation. The issue of resourcing is not limited to financial resources for delivery of crime and violence prevention services but includes capacity development, research and technical support and development of systems (e.g., for information management and dissemination).</p> <p>Government departments need to work smarter by doing the following:</p> <ul style="list-style-type: none"> reviewing ineffectual programmes and redirecting spending; mobilising alternative sources of funding; and working in a more integrated manner to address duplication and wasteful expenditure. <p>Mechanisms to address funding and resourcing include:</p> <ul style="list-style-type: none"> Ensuring existing funding mechanisms, financial programmes, infrastructure grants, urban upgrading programmes, social development and educational programmes, and job generation and skills development initiatives are effectively channelled towards community safety outcomes at the local level. Integrating a focus on community safety in current capacity-building initiatives (DCoG). Sourcing funding from SETAs for capacity building. Engaging Public Works and DCoG to develop guidelines to institutionalise crime and violence prevention in existing programmes, Extended Public Works Programme (EPWP) and Community Works Programme (CWP). Engaging Department of Justice and Constitutional Development (DOJ&CD) and Department of International Relations and Cooperation (DIRCO) to channel bi-lateral and donor aid to support community safety, crime prevention and violence prevention. Directing funding to crime and violence prevention from state funding agencies (National Lotteries, National Youth Development Agency, Department of Trade and Industry) to crime and violence prevention.

8.4 Implementation and Coordination Mechanisms are Properly Resourced

The Strategy proposes a range of implementation structures. A key requirement for the effective functioning of coordination and implementation mechanisms is the appropriate resourcing and equipping of these mechanisms to execute their functions. This includes the allocation of dedicated staff with requisite authority and skills to discharge their functions effectively, and budgets to support implementation, at national, provincial and local government level.

8.4.1 STRENGTHEN CAPACITY OF THE DEPARTMENT RESPONSIBLE FOR PLANNING, MONITORING AND EVALUATION

OBJECTIVE	MECHANISMS
Capacity in the DPME to monitor implementation of the Strategy	<p>Provide dedicated personnel, with requisite skills, resources and authority to monitor implementation of the Strategy.</p> <p>The strategic intent of this is to:</p> <ul style="list-style-type: none"> establish a national focal point to drive the institutionalisation of the Strategy in government; institutionalise evidence-based planning by providing an institutional home with authority to engage line function departments; and strengthen the focus on crime and violence prevention in the MTSF and integrate it into outcomes-based monitoring systems. <p>The responsibilities include:</p> <ul style="list-style-type: none"> developing a holistic Monitoring and Evaluation Framework, which will include specific indicators and measures to track progress against systems and thematic outcomes; co-ordinating reporting of national, provincial and local government against the Monitoring and Evaluation Framework; and ensuring integration of safety, crime prevention and violence prevention outcomes within government's strategic framework.

8.4.2

ESTABLISH AND RESOURCE A NATIONAL CENTRE FOR COMMUNITY SAFETY, CRIME AND VIOLENCE PREVENTION

OBJECTIVE	MECHANISMS
Resourced National Centre for Community Safety, Crime and Violence Prevention	<p>The objectives of this Centre are to:</p> <ul style="list-style-type: none"> ■ provide expertise and support in the development of policies, strategies and plans; ■ mobilise resources needed to sustain safety, crime prevention and violence prevention activities; ■ facilitate shared learning and the development of partnerships; ■ monitor implementation of the Strategy and conduct evaluations; ■ collate and analyse data; and ■ provide a central repository of knowledge and information. <p>The primary aim of the Centre is to promote the large-scale use and sustainability of evidence-based crime and violence prevention programmes in South Africa, in order to:</p> <ul style="list-style-type: none"> ■ influence strategic, plans and budgets through the provision of technical support; ■ develop a knowledge base through research and evaluation of crime and violence prevention programmes; ■ mobilise and channel resources towards evidence-based programmes; and ■ capacitate government, civil society organisations and communities to implement crime and violence prevention programmes. <p>The functions of the Centre include the following:</p> <ul style="list-style-type: none"> ■ Provide expertise and support in the development of policies, strategies and plans to the following role-players: <ul style="list-style-type: none"> ■ Government, through technical support in the development of new strategies and plans and the review/assessment of existing strategies/plans; ■ NGOs, through technical support in development of programmes, implementation and monitoring and evaluation; ■ The corporate/donor sector by linking with stakeholders, NGOs, communities and government, through: <ul style="list-style-type: none"> ■ capacity building, training and ongoing coaching/support to government, NGO and community practitioners; ■ development of tools such as toolkits and accessible information on programme design, implementation and monitoring and evaluation; ■ funding promising projects; and ■ conducting implementation research that links programme design, evaluation and implementation. ■ Mobilise resources needed to sustain safety, security and crime and violence prevention activities. <ul style="list-style-type: none"> ■ Secure and channel funding from donors, government and state funding agencies for training, capacity building and interventions. ■ Facilitate shared learning and the development of partnerships. <ul style="list-style-type: none"> ■ Conduct research on 'what works' (with civil society, by commissioning research and evaluations). ■ Draw on and disseminate research from civil society, academia and international and continental sources. ■ Facilitate relationships with implementers, practitioners, academics and government to ensure implementation of evidence-based programmes. ■ Foster collaborations across academic, government, civil society and private sector through: <ul style="list-style-type: none"> □ dialogues to identify research priorities and share information; □ partnerships for multisectoral implementation research; □ training to build capacity for research and analysis, and practice; □ information sharing; and □ funding. ■ Monitor implementation and conduct evaluations. <ul style="list-style-type: none"> ■ Commission research and evaluations. ■ Collate and analyse data. <ul style="list-style-type: none"> ■ Collect and analyse data. ■ Provide a repository of knowledge and information. <ul style="list-style-type: none"> ■ Develop a knowledge base, accessible to all practitioners and communities.⁴²

8.4.3

PROVIDE CAPACITY IN THE OFFICE OF THE PREMIER TO DRIVE IMPLEMENTATION OF THE STRATEGY IN PROVINCES

OBJECTIVE	MECHANISMS
Capacity in the Office of the Premier to drive implementation of the Strategy	<p>The Office of the Premier should be capacitated to coordinate, monitor and evaluate implementation of the Strategy in the province.</p> <p>This is motivated by the need to coordinate and drive implementation of the Strategy in provinces, and includes the following key activities:</p> <ul style="list-style-type: none"> ■ promoting alignment to strategic planning processes and monitoring and evaluation systems to ensure a whole-of-province approach to implementation; and ■ providing support to the Technical Committee of the Premier IGR Forum to drive implementation. <p>The nature of this capacity may vary from province to province. Existing structures and mechanisms in respective Offices of the Premier need to be explored; this function may be integrated into existing directorates/units where appropriate.</p> <p>This does not preclude functions for provincial departments of community safety and other operational structures (i.e., JCPS structures and SAPS Joints). These departments and structures will retain responsibility for executing the implementation within their respective mandates and competencies. However, co-ordination, oversight and accountability mechanisms for the Strategy must be integrated and inclusive of all sector departments at a provincial level, requiring coordination at the highest level in the province.</p>

OBJECTIVE	MECHANISMS
<p>Capacity in the Municipal Manager's Office to drive implementation of the Strategy ... continued</p>	<p>Municipalities should have a dedicated capacity to coordinate crime and violence prevention, which is institutionalised into the municipal organogram and appropriately resourced with adequate funding and senior professional staff with requisite skills, at the highest level in the municipality.</p> <p>Location</p> <ul style="list-style-type: none"> ■ District and Municipal This capacity must be located at the level where it can facilitate alignment across different municipal services and the IDP. In view of the challenges experienced by small and rural municipalities, it may not be feasible for such municipalities to establish a dedicated unit. In such instances, this function should be located at the district level. ■ Municipal Manager's Office This function should be driven by the Municipal Manager as accounting officer. The location of the coordination function in municipalities should facilitate: <ul style="list-style-type: none"> ■ an inter-sectoral focus with municipal-wide application across municipal departments; ■ integration into IDP and strategic management systems of the municipality; ■ data collection and management across the municipality and other stakeholders; ■ leadership and authority to drive coordination and collaboration; ■ oversight and accountability. ■ alignment of monitoring and performance management systems; and ■ institutionalisation without politicisation. <p>Given the diversity of arrangements across district and metropolitan municipalities, existing structures/units may exist that can perform or support this function.</p> <p>The establishment of this function will require some legal authority, support and consensus and will require engagement with provinces and organised local government. This may be addressed in guidelines and facilitated through existing IGR forums (presidential, national and provincial IGR forums).</p> <p>Core functions include the following:</p> <ul style="list-style-type: none"> ■ Support implementation of the Strategy at local level. ■ Develop and coordinate implementation of the Municipal Community Safety Strategy. ■ Facilitate institutional arrangements to: <ul style="list-style-type: none"> ■ facilitate alignment with municipal policies, strategies and priorities; provincial and national policy frameworks, plans and strategies; ■ promote integrated safety planning and evidence-based planning within the municipality; and ■ review instruments (regulations, codes, policy, by-laws) to determine whether they are outdated or adequate but requiring review. ■ provide training and capacity development. ■ Manage stakeholder involvement. ■ Monitor and evaluate. ■ Conduct safety audits/ward profile audits and develop community safety plans. ■ Undertake and commission research and surveys. ■ Undertake programmes and interventions.

8.5 Strengthening of Intergovernmental Cooperation Systems

8.5.1 INTEGRATED FOCUS ON COMMUNITY SAFETY INTO THE WORK OF IGR FORUMS AND STRENGTHENING OF FORUMS

OBJECTIVE	MECHANISMS
<p>Integrated focus on community safety in IGR forums</p>	<p>One of the key issues affecting the implementation of integrated crime and violence prevention strategies is poor intergovernmental planning and delivery. Although intergovernmental structures are forums for intergovernmental consultation and not executive decision-making bodies (s32 IGRF Act), intergovernmental structures can still play a key role in securing consensus and coordinating and monitoring implementation of the Strategy.</p> <p>Challenges affecting poor integration in planning and service delivery include:</p> <ul style="list-style-type: none"> ■ A plethora of policy and strategy instruments has created a range of structures responsible for the coordination of crime and violence prevention initiatives in government that are not adequately aligned or coordinated. The creation of additional forums has overburdened officials having to attend a multiplicity of forums. ■ Existing IGR forums are not aligned to facilitate inter-sectoral coordination required by the Strategy (thematic areas extend across current cluster formations) or coordination between spheres of government (national, provincial and local) on community safety. ■ A 'silo' approach does not facilitate inter-sectoral planning or address the need for greater coordination across spheres of government. Specific ministries or departments that have been assigned with coordination of crime and violence prevention initiatives have also faced challenges in their ability to hold other departments accountable. <p>To address challenges with existing IGR forums, the following is proposed:</p> <p>i Draft regulations and guidelines to facilitate effective coordination for implementation of the Strategy</p> <p>The development of regulations and guidelines on community safety will strengthen horizontal and vertical coordination for the implementation of the Strategy across government.</p> <ul style="list-style-type: none"> ■ Develop guidelines to clarify the relationship between different spheres of government in respect of community safety. The minister responsible for provincial and local government must develop guidelines clarifying and strengthening the relationship between different spheres of government in respect of community safety. <p>Section 5 of the IGRF Act provides a framework for national, provincial and local government and all organs of state to facilitate coordination in the implementation of policy and legislation. The Act requires spheres of government to achieve this through a process of consultation and engagement. The IGRF Act provides for the Minister of Cooperative Governance to issue regulations or guidelines to provide a framework for coordination and alignment of development priorities and objectives between the three spheres of government.⁴³</p> <ul style="list-style-type: none"> ■ Develop guidelines to facilitate effective coordination for implementation the Strategy. Section 47 of the IGRF Act provides for the minister responsible for provincial and local government to issue regulations or guidelines relating to: <ul style="list-style-type: none"> ■ any matter prescribed in terms of the IGRF Act; ■ a framework for the coordinating and aligning of development priorities and objectives between the three spheres of government; ■ a framework for coordinating intergovernmental conduct and action affecting municipal functions; ■ Implementation protocols; ■ indicators for monitoring and evaluating the implementation of the IGRF Act; and ■ any other matter that may facilitate the administration of the IGRF Act. <p>Guidelines should address:</p> <ul style="list-style-type: none"> ■ the strengthening of intergovernmental forums at provincial and local level dealing with community safety (s47 of the IGRF Act); ■ the role of provinces (Office of the Premier and DCoG) in facilitating intergovernmental relations in respect of community safety; ■ the roles and responsibilities of different departments and stakeholders in respect of community safety, crime prevention and violence prevention and relationship to local government; and ■ the implementation of monitoring and evaluation systems and reporting requirements in respect of safety, crime prevention and violence prevention initiatives between province, district and local municipalities. <p>ii Strengthen IGR Forums</p> <p>This can be achieved through:</p> <ul style="list-style-type: none"> ■ The development of implementation of protocols monitored by intergovernmental forums to coordinate performance and functions in respect of the Strategy. Implementation protocols should address: <ul style="list-style-type: none"> ■ obligations, roles and responsibilities of different departments and spheres of government; ■ priorities, aims and desired outcomes; and ■ indicators for effective implementation. ■ Strengthening technical support structures. The technical forums supporting the political forums listed above should be capacitated and resourced. Technical support structures for IGR forums are key to ensuring alignment between political processes and the administration. IGR forums responsible for the Strategy must be supported by technical structures at all levels to ensure decisions and resolutions at the political level are integrated into departmental processes. <p>Intergovernmental forums should be supported by well-resourced intergovernmental technical support structures consisting of senior officials representing the governments and organs of state participating in the intergovernmental forum (Section 30 IGRF Act).</p>

OBJECTIVE	MECHANISMS
<p>Integrated focus on community safety in IGR forums ... continued</p>	<p>The following IGR Forums can play a key role overseeing and promoting coordination of the Strategy:</p> <p>Presidential Co-ordinating Council Role: Integration of the Strategy into national, provincial and local government strategic frameworks.</p> <ul style="list-style-type: none"> ■ Provide consultation on the Strategy. ■ Facilitate coordination in implementation of the Strategy at national, provincial and local level. ■ Facilitate alignment of the Strategy with national, provincial and local government strategies and plans. ■ Monitor performance by receiving reports from intergovernmental forums on the status of implementation of the Strategy. ■ Monitor integration of the Strategy into provincial and local government strategic frameworks. <p>Outputs:</p> <ul style="list-style-type: none"> ■ Adopt resolutions supporting implementation. ■ Develop and monitor implementation protocol between national, provincial and local government. <p>Outcome:</p> <ul style="list-style-type: none"> ■ Build consensus and ensure policy coherence in addressing crime and violence prevention across government. <p>National Intergovernmental Forums Role: Coordination and alignment of national and provincial government implementation of the Strategy.</p> <ul style="list-style-type: none"> ■ Facilitate coordination and alignment of the Strategy between national and provincial government departments. ■ Receive reports on the status of implementation of the Strategy. ■ Monitor integration of the Strategy into provincial government strategic frameworks. ■ Facilitate coordination and alignment of priorities and strategies across national and provincial government. <p>Outputs:</p> <ul style="list-style-type: none"> ■ Adopt resolutions supporting Strategy implementation. ■ Develop and monitor implementation protocol on the Strategy's coordination between national and provincial government departments. <p>Premier Intergovernmental Forum Role: Coordination and alignment of provincial government implementation of the Strategy with provincial government strategy.</p> <ul style="list-style-type: none"> ■ Facilitate coordination and alignment within provincial government departments. ■ Receive reports on the status of implementation from provincial government departments. ■ Monitor integration into provincial government strategic frameworks and provincial departments. ■ Facilitate coordination and alignment of priorities and strategies across provincial government. <p>Outputs:</p> <ul style="list-style-type: none"> ■ Adopt resolutions supporting the Strategy's implementation. ■ Develop and oversee implementation protocol on the Strategy's coordination within provincial government. <p>Provincial Intergovernmental Forums Role: Coordination and alignment of provincial and local government implementation of the Strategy.</p> <ul style="list-style-type: none"> ■ Facilitate coordination and alignment between province and local government. ■ Receive reports on the status of implementation from district and local municipalities. ■ Monitor integration of the Strategy into district and local municipalities' strategic frameworks and IDPs. ■ Facilitate coordination and alignment of priorities and strategies between provincial and local government in the province. <p>Outputs:</p> <ul style="list-style-type: none"> ■ Adopt resolutions supporting implementation. ■ Develop and oversee implementation protocol on the Strategy's coordination between provincial government departments and municipalities. <p>District Intergovernmental Forum Role: Coordination and alignment of provincial and local government implementation of the Strategy.</p> <ul style="list-style-type: none"> ■ Facilitate coordination and alignment within district. ■ Receive reports on the status of implementation from local municipalities. ■ Monitor integration into local municipalities' strategic frameworks and IDPs. ■ Facilitate coordination and alignment of priorities and strategies between district and local municipalities. <p>Outputs:</p> <ul style="list-style-type: none"> ■ Adopt resolutions supporting the Strategy's implementation. ■ Develop and monitor implementation protocol on Strategy's coordination between district and local municipalities.

8.6 Evidence-Based Planning and Implementation

8.6.1 STRATEGIC PLANNING IS KNOWLEDGE BASED

OBJECTIVE	MECHANISMS
Planning to be informed by analysis of needs	<p>Planning must be informed by an analysis of needs to inform alignment of current strategies, plans and programmes/interventions with the Strategy.</p> <p>This applies to:</p> <ul style="list-style-type: none"> ■ line function departments, whose plans should be informed by information from provincial, district and local level; ■ provinces, in development of provincial profiles of the safety, crime and violence concerns in their respective provinces; and ■ local government, in conducting community 'safety audits' of crime and violence and helping to develop community safety plans to inform municipal safety plans and provincial profiles. <p>Strategy and policy gaps identified in the needs analysis will inform the process of alignment of departmental and sector strategies.</p> <p>Effective planning and strategy development are contingent on reliable information and data. Integrated, reliable information management systems are an essential component of the strategic planning process.</p> <p>All strategic planning must be knowledge based:</p> <ul style="list-style-type: none"> ■ Line function national department strategies (informed by needs assessments and integrated provincial and local needs and priorities). ■ Provincial strategies (informed by provincial profiles and needs assessments and integrated local needs and priorities). ■ Municipal strategies (informed by community safety plans and audits). <p>Comprehensive needs assessments will identify gaps and challenges in current strategic plans and resource provision and inform:</p> <ul style="list-style-type: none"> ■ alignment/amendment of existing plans or development of new plans with the Strategy; ■ alignment/development of programmes and interventions to address gaps or challenges identified; ■ identification of legislative/regulatory, resource or budgetary limitations that require redress; and ■ intergovernmental cooperation and collaboration requiring attention.

8.6.2 STRATEGIES, INTERVENTIONS AND PROGRAMMES ARE EVIDENCE BASED

OBJECTIVE	MECHANISMS
Strategies, interventions and programmes are evidence-based	<p>Interventions and programmes must be evidence based, relevant to local contexts and informed by local needs. They must integrate monitoring, evaluation and learning components.</p> <p>The Strategy requires a knowledge-based approach. Interventions and programmes employed must be based on demonstrated and proven results and integrate monitoring and evaluation to enable continued learning and improvement, thus strengthening accountability and effectiveness.</p> <p>'Strategies and interventions must be evidenced-based and informed "by a broad, multidisciplinary foundation of knowledge about crime problems, their multiple causes and promising and proven practices". A comprehensive strategy must draw on approaches and interventions that have been rigorously evaluated and shown to be effective in achieving specific crime, violence prevention, or safety outcomes.</p> <p>'Evidence of what works in social crime and violence prevention demonstrates the importance of addressing the risk factors for crime and violence as highlighted in the key themes of this White Paper. This includes early childhood interventions, school-based programmes, youth and family level interventions, strategies to deal with violence against women, community level interventions, improving the efficiency, effectiveness and accountability of the criminal justice system, controlling the availability of firearms, and safety through environmental design.'</p> <p><i>(2016 White Paper on Safety and Security.)</i></p> <p>The availability and collection of data is a critical component in conceptualisation, design, implementation and evaluation of strategies and interventions.</p>

8.6.3 RELIABLE, INTER-SECTORAL, DISAGGREGATED DATA IS ACCESSIBLE AND INFORMS PLANNING

OBJECTIVE	MECHANISMS
Planning informed by reliable, Inter-sectoral, disaggregated data	<p>The collection of reliable data to inform evidence-based interventions is an essential component of the crime and violence prevention approach advocated in the Strategy and must be available and accessible through inter-sectoral data management systems.</p> <p>Reliable data is critical for the effective planning, delivery and monitoring of implementation.</p> <p>Key components include:</p> <ol style="list-style-type: none"> The collection of reliable data across the range of departments and sectors, including public health information from hospitals, clinics, mortuaries and emergency and trauma units on injuries, accidents, deaths, drug and alcohol use and mortality. This would provide important data to inform the analysis of crime and violence. This data should reflect not only direct safety indicators but also include progress on addressing risk and protective factors. Data should be used to inform planning, to: <ul style="list-style-type: none"> identify and define the incidence and prevalence of crime and violence reported and unreported; identify the scale, scope and location of safety problems; identify specific risk and protective factors (when and where problems occur, who is involved to assist in understanding patterns and trends and likely causal factors); identify availability and gaps in services and delivery; assess the effectiveness of the allocation of resources; identify, develop and test interventions, which can then be implemented; and evaluate what works, and develop a repository of evidence-based knowledge for future use. Data must be disaggregated to facilitate analysis and identification of drivers and risks factors. <ul style="list-style-type: none"> Data disaggregated by age, gender, relationship, geography and a range of other measures is essential to accurately develop and adapt relevant local, provincial and national policies, strategies and plans. Data collection must be ongoing and institutionalised in reporting arrangements. <ul style="list-style-type: none"> Safety is not static, and social and structural factors that contribute to crime and violence may change over time. Where required, the capacity of departments should be increased, to ensure the ongoing collection and utilisation of accurate data. Data systems must be integrated and accessible. <ul style="list-style-type: none"> Data systems must allow for integrated analysis and effective monitoring. This is critical in identifying blockages and gaps in service delivery and ensuring service provision is integrated. Such systems will allow for a flow of data across departments and spheres of government, facilitating and supporting reporting arrangements. Data should be accessible to bona fide researchers, civil society and community organisations. <ul style="list-style-type: none"> Protocols must be established to facilitate integration, management, distribution, analysis and sharing of data.

8.7 Programmes and Interventions must be Responsive, Accessible and of High Quality, and must Promote Integrated Service Delivery

8.7.1 PROGRAMMES AND INTERVENTIONS MUST BE ACCESSIBLE

OBJECTIVE	MECHANISMS
Programmes and services are accessible to those who need them.	<p>Programmes and services must be available to those who need them (resourced by an adequate number of service providers and funded partnerships with NPOs).</p> <ul style="list-style-type: none"> ■ Members of the public must be aware of and know how to access programmes and services. ■ Services must be available at required times. ■ Services must be accessible to vulnerable groups. ■ Services must be accessible to remote and rural communities.

8.7.2 PROGRAMMES AND SERVICES MUST BE EQUITABLY DISTRIBUTED AND BASED ON EVIDENCE

OBJECTIVE	MECHANISMS
Programmes and services are equitably distributed.	<p>Delivery must be informed by needs assessments, provincial profiles and local audits, including assessments of risk, needs and demands and audit of current programmes and interventions to ensure appropriate intervention and allocation of resources.</p>

8.7.3 PROGRAMMES AND SERVICES MUST BE DEVELOPMENTAL

OBJECTIVE	MECHANISMS
Programmes and services are integrated, addressing risk, protections and resilience factors at all levels.	<p>Programmes and services must address:</p> <ul style="list-style-type: none"> ■ primary, secondary and tertiary levels ■ risk, protection and resilience factors at individual, family, community, societal and macro structural levels ■ context-appropriate interventions for categories of vulnerable/'at risk' target groups ■ disaggregation of programmes for various vulnerable/'at risk' groups <p>Services must be integrated, providing a continuum of care and support between service departments.</p>

8.7.4 PROGRAMMES AND SERVICES MUST BE OF HIGH QUALITY

8.8 Active Public and Community Participation

The Strategy promotes an ‘all of society’ approach, recognising the key role of communities and encouraging partnerships with civil society and the private sector.

The NDP recognises active citizenry and coordinated partnerships as key components to a sustainable strategy for citizen safety.

The White Paper on Safety and Security (2016) recognises the importance of state parties working with non-state bodies to establish safety needs and develop strategies to address them. It proposes the development of sustainable forums for coordinated and collaborative community participation; public participation in the development, planning and implementation of interventions; and public and private partnerships to support safety, crime prevention and violence prevention.

The Strategy entrenches active citizenry and coordinated partnerships as a key component of sustainable strategies for community safety by integrating it as both a systemic requirement and a thematic area, and assigns responsibilities for facilitating this to all spheres of government.

8.8.1 INSTITUTIONALISATION OF COMMUNITY PARTICIPATION

OBJECTIVE	MECHANISMS
Community participation is entrenched in processes and interventions	<p>This will be achieved by the:</p> <ul style="list-style-type: none">■ development of process indicators for community participation;■ integration of strategies in guidelines that embed community involvement (e.g., community safety audits and development of community safety plans);■ provision of resources to capacitate communities;■ strengthening of legal and policy frameworks to entrench meaningful engagement. <p>Institutionalisation is further entrenched through thematic interventions (discussed below), which require:</p> <ul style="list-style-type: none">■ active public and community participation in the development, planning and implementation of interventions addressing community safety, crime prevention and violence prevention;■ facilitation of sustainable forums for coordinated, collaborative action and ongoing participation;■ public and private partnerships to support programmes and interventions. <p><i>(See Pillar 6: Active Public and Community Participation.)</i></p>

9 RISK MANAGEMENT

The effective implementation of this Strategy is dependent on the following factors:

- Political will by the executive authority to lead and drive implementation and accountability.
- Senior leadership at both the political and the administrative level.
- The willingness to work together in an integrated manner at both the political and the institutional level.
- Funding: The allocation of required resources, human capacity and budgets for effective implementation.
- Effective alignment of interventions addressing underlying macro-structural factors that contribute to the risk factors and drive crime and violence with interventions in this Strategy.⁴⁴

10 ROLES AND RESPONSIBILITIES

10.1 National Government

THE ROLE OF NATIONAL GOVERNMENT INCLUDES THE FOLLOWING:

BUDGETS AND RESOURCES

- Provide clear and sufficient guidance on budgetary and planning processes to line function departments. Allocate budgets for strategy, plans, roles, programmes and interventions for safety, crime prevention and violence prevention.
- Ensure allocation of funding and resources at national, provincial and local level.
- Provide guidance, technical support and capacity building on safety, crime prevention and violence prevention strategies and implementation to provincial and local government through a National Crime Prevention Centre.
- Resource and capacitate implementation structures at national level.
- Account to Parliament for the spending of budgets and outputs for safety, crime prevention and violence prevention.

LEGISLATION AND POLICY

- Align national legislation and policies with the Strategy.

STRATEGIES

- Ensure the integration of safety and security outcomes into national Government's strategic frameworks.
- Ensure that strategies, plans, key performance indicators (KPIs), norms and standards are aligned with the safety, crime prevention and violence prevention outcomes of the Strategy.
- Ensure integration of local and provincial needs into national strategies and plans.

IMPLEMENTATION STRUCTURES

- Establish implementation structures.

INTERGOVERNMENTAL CO-OPERATION SYSTEMS

- Facilitate intergovernmental relations between national, provincial and local government.
- Participate in intergovernmental forums on a national, provincial and local level.
- Ensure that issues relating to the implementation of the Strategy are discussed, consulted and acted upon.

EVIDENCE-BASED ASSESSMENTS AND MONITORING AND EVALUATION

- Conduct needs assessment at national level.
- Develop and implement the Monitoring and Evaluation Framework at national level.
- Ensure implementation and reporting by provincial and local government on Monitoring and Evaluation Framework.
- Conduct a baseline.
- Co-ordinate the reporting of national, provincial and local government against the Monitoring and Evaluation Framework.
- Account to Parliament on implementation and outcomes of the Strategy.

PROGRAMMES AND INTERVENTIONS

- Implement programmes and interventions aligned to the Strategy.
- Initiate and co-ordinate national safety, crime prevention and violence prevention programmes and interventions with provincial and local government.
- Ensure integration of provincial and local needs in programmes and interventions.

ACTIVE PUBLIC AND COMMUNITY PARTICIPATION

- Ensure active public and community participation in the development, planning and implementation of national strategies and policies.
- Ensure the establishment of sustainable forums for coordinated, collaborative and ongoing community participation.
- Facilitate public and private partnerships to support safety, crime prevention and violence prevention programmes and interventions.

10.2 Provincial government

THE ROLE OF PROVINCIAL GOVERNMENT INCLUDES THE FOLLOWING:

BUDGETS AND RESOURCES

- Allocate budgets for strategy, plans, roles, programmes and interventions for safety, crime prevention and violence prevention at provincial level.
- Mobilise funding and resources for safety, crime prevention and violence prevention programmes at local level.
- Provide capacity and support to local government to implement the Strategy.
- Capacitate and resource the Provincial Directorate for Safety, Crime and Violence Prevention.
- Account to the provincial legislature for the spending of budgets and outputs for safety, crime prevention and violence prevention.

LEGISLATION AND POLICY

- Align provincial legislation and provincial policies with the Strategy.
- Ensure the integration of safety and security outcomes within provincial government and provincial departments' strategic frameworks.
- Develop provincial strategies and plans in alignment with this Strategy and the NSP.
- Ensure strategies, plans, KPIs, norms and standards are aligned with the safety, crime prevention and violence prevention outcomes.
- Ensure alignment of IDP planning and reporting to the Strategy.
- Integrate local needs and priorities into provincial strategies, plans and interventions.

IMPLEMENTATION STRUCTURES

- Capacitate the Office of Premier to drive integrated implementation of the Strategy in the province.
- Capacitate implementation mechanisms.

INTERGOVERNMENTAL CO-OPERATION SYSTEMS

- Develop implementation plans and protocols for implementation of the Strategy.
- Co-ordinate a range of provincial competencies in the departments of health, education, social development and local government, enabling them to implement the Strategy.
- Participate in intergovernmental forums at national, provincial and local levels and ensure that issues relating to the implementation of the Strategy are discussed and consulted upon.
- Co-ordinate between provincial and local government (together with the provincial government department responsible for co-operative government) to ensure effective implementation of the Strategy at local government level.

EVIDENCE-BASED ASSESSMENTS AND MONITORING AND EVALUATION

- Conduct needs assessments at provincial level.
- Implement the Monitoring and Evaluation Framework at provincial level.
- Ensure implementation and reporting by local government on the Monitoring and Evaluation Framework.
- Conduct provincial baselines.
- Co-ordinate the reporting of provincial and local government against the Monitoring and Evaluation Framework.
- Report to the provincial legislature on implementation and outcomes of the Strategy.

PROGRAMMES AND INTERVENTIONS

- Initiate and co-ordinate safety, crime prevention and violence prevention programmes and interventions in the province.
- Initiate and co-ordinate safety, crime prevention and violence prevention programmes and interventions with local government.
- Participate in national programmes on safety, crime prevention and violence prevention.
- Implement programmes and interventions aligned to safety, crime prevention and violence prevention outcomes.
- Ensure integration of provincial and local needs in programmes and interventions.

ACTIVE PUBLIC AND COMMUNITY PARTICIPATION

- Ensure active public and community participation in the development, planning and implementation of national strategies and policies.
- Facilitate and support the establishment of sustainable forums for coordinated, collaborative and ongoing community participation.
- Facilitate public and private partnerships to support safety, crime prevention and violence prevention.

10.3 Local Government

THE ROLE OF LOCAL GOVERNMENT INCLUDES THE FOLLOWING:

LEGISLATION AND POLICY

- Align legislation (by-laws) and policy to safety, crime prevention and violence prevention outcomes.

STRATEGIES

- Develop a local strategy and community safety plans.
- Develop strategies and integrate safety, crime prevention and violence prevention outcomes into strategic plans, performance plans, norms and standards.
- Integrate safety, crime prevention and violence prevention outcomes into the IDP.
- Align and complement planning of IDPs with other municipalities and organs of state to ensure that safety, crime prevention and violence prevention are prioritised and that best practices are integrated across municipalities.
- Ensure alignment of KPIs in strategies, plans, norms and standards with the Strategy.

IMPLEMENTATION STRUCTURES

- Build capacity in the Office of the Municipal Manager to drive implementation of the Strategy across the municipality.
- Capacitate implementation mechanisms to ensure effective implementation of the Strategy across the municipality

INTERGOVERNMENTAL CO-OPERATION SYSTEMS

- Develop implementation protocols with other spheres of government and organs of state to facilitate implementation of the Strategy at local level.
- Contribute to setting joint safety, crime prevention and violence prevention priorities and interventions with other tiers of government, departments and municipalities.
- Participate in intergovernmental forums on a national, provincial and local level and ensure that issues relating to the implementation of the Strategy are discussed, consulted and put into action.

EVIDENCE-BASED ASSESSMENTS AND MONITORING AND EVALUATION

- Conduct needs assessment at local level.
- Implement the Monitoring and Evaluation Framework at local level.
- Conduct a baseline.
- Ensure alignment of KPIs in IDP.
- Conduct community safety audits on an annual basis.
- Report to municipal council on implementation and outcomes of the Strategy.

PROGRAMMES AND INTERVENTIONS

- Co-ordinate safety, crime prevention and violence prevention interventions within the municipal area.
- Ensure effective enforcement of by-laws on safety, crime prevention and violence prevention.
- Implement programmes and interventions aligned to safety, crime prevention and violence prevention outcomes.

ACTIVE PUBLIC AND COMMUNITY PARTICIPATION

- Establish sustainable forums for coordinated, collaborative and ongoing community participation.
- Facilitate public and private partnerships to support safety, crime prevention and violence prevention programmes and interventions.

11 IMPLEMENTATION AND GOVERNANCE

11.1 The Presidency

The Presidency must:

1. Champion the Strategy in order to:
 - provide the highest level of political leadership, support and the authority to drive implementation;
 - recognise community safety, crime prevention and violence prevention as an apex priority of Government; and
 - ensure integration of this priority across government departments and spheres of government.
2. Drive oversight and implementation through the Presidential Coordinating Council.
3. Ensure integration into the government-wide Medium-Term Strategic Framework (MTSF) and monitoring and evaluation systems (through the functions of the Department of Planning, Monitoring and Evaluation). Responsibility for implementation of the Strategy resides with the respective line function departments and spheres of government. This includes creating an enabling environment for non-state actors.
4. Establish the National Crime and Violence Prevention Centre which must be located in the Presidency at the Policy and Research Services Section.

The Centre will provide guidance, technical support and capacity building on safety, crime prevention and violence prevention strategies and implementation to national, provincial and local government.

(See Section 8.4.2: National Centre for Community Safety, Crime and Violence Prevention.)

11.2 The department responsible for planning, monitoring and evaluation

The department responsible for planning, monitoring and evaluation in government must do the following:

1. Develop a holistic Monitoring and Evaluation Framework that will include specific indicators and measures to track progress against system and thematic outcomes.
2. Co-ordinate reporting of national, provincial and local government against the Monitoring and Evaluation Framework.
3. Facilitate the development of an integrated data and information management system and protocols for information sharing between different spheres of government.
4. Ensure integration of safety, crime prevention and violence prevention outcomes within government's Medium-Term Strategic Framework (MTSF).
5. Develop a repository of evidence-based programmes that enhance resilience in children and youth.
6. Resource research and evaluations into promising practices.

(See Sections 8.4.1: Strengthen capacity of the department responsible for planning, monitoring and evaluation; Pillar 2D, Section 1: Increased access to evidence-based programmes for 'vulnerable' at risk groups; Pillar 2D, Section 1.1: Increase in provision of evidence-based crime and violence prevention programmes.)

11.3 Department of Cooperative Governance

The Department of Cooperative Governance (DCoG) is responsible for intergovernmental relations and the implementation of the Integrated Urban Development Framework (which recognises community safety as a cross-cutting issue).

DCoG must to the following:

1. Develop guidelines and regulations to facilitate the institutionalisation of the Strategy across government. These guidelines and regulations must
 - address the role of local government in community safety and developing KPI for the IDP;
 - clarify obligations of provincial government to local government;
 - strengthen intergovernmental relations and mechanisms between spheres of government for community safety; and
 - develop standard by-laws for community safety.

(See Sections 8.1.1: Improve policy coherence; 8.1.2: Strengthen the legal and regulatory framework for crime and violence prevention; 8.1.6: Strengthen reporting mechanisms; 8.2.2: Integrate strategic planning across three spheres of government; 8.5: Strengthening Intergovernmental Cooperation Systems.)

2. Facilitate funding and resources for community safety at local level.

3. Integrate the focus on crime and violence prevention into various government initiatives (e.g., CWP).

(See Pillar 2A, Section 1: Primary prevention and early intervention for the effective provision of crime and violence prevention, with early interventions and programmes institutionalised across government.)

11.4 Civilian Secretariat for Police Service (CSPS)

The role of the CSPS is to:

- Provide input to DCoG on the development of the following:
 - Guidelines on community safety
 - KPIs for community safety for IDPs
 - Provincial assessment tool for IDPs in respect of community safety for provinces
- Review and strengthen the CPF and CSF policy.
 - Clarify the relationship between provincial secretariats and local government in respect of the Community Safety Forum (CSF) Policy and Community Policing Forum (CPF) Policy.
- Provide support to provincial secretariats in implementing community safety functions through:
 - the development of guidelines, systems and tools
 - capacity building
 - technical support

(See Section 8.1.2.4: Clarify the role of the Civilian Secretariat for Police and Provincial Secretariats in respect of crime and violence prevention.)

- Monitor and evaluate by
 - developing standard reporting frameworks for reporting obligations from provincial secretariats to CSPS; and
 - receiving and monitoring reports from provincial secretariats on support provided to local government in respect of community safety.

(See Section 8.1.2.4: Clarify the role of the Civilian Secretariat for Police and Provincial Secretariats in respect of crime and violence prevention.)

11.5 Provinces

11.5.1 The Office of the Premier

Overall responsibility for the implementation of the Strategy in provinces resides with the Premier of the province.

Coordination of the Strategy's implementation should therefore be located at this level to ensure the inclusion and elevation of community safety, crime prevention and violence prevention into strategic priorities and core provincial plans at the highest level; to facilitate an integrated approach across all departments of provincial government; and to ensure integration of the Strategy into provincial monitoring and evaluation systems.

The legal mandate and authority of the Premier are key to ensuring the integration of the Strategy across provincial government, and the coordination of intergovernmental relations within the provincial government with national government and local governments in the province.⁴⁵ The Premier Provincial Intergovernmental Forum is therefore a key mechanism for ensuring integration of provincial priorities and alignment between provincial government departments.⁴⁶ The location of this coordinating role with the Office of the Premier will also facilitate engagement and reporting to the President's Co-ordinating Council (PCC) on progress in the implementation of the Strategy.

The Strategy proposes the development of capacity in the Office of the Premier to drive this process.

11.5.2 Line function provincial government departments

Provincial departments play a key role in implementation of the thematic interventions. The roles and responsibilities of provincial departments in respect of implementing the Strategy must be clearly articulated in provincial strategies coordinated by the Office of the Premier to ensure effective integration across provincial government departments.

11.5.3 Provincial departments responsible for local government

Provincial departments responsible for local government, together with the Offices of the Premier, are mandated to facilitate greater coordination between provinces and local government and can play a key role in respect of community safety, crime prevention and violence prevention. This includes strengthening the process of development, input and review of IDPs, and the provision of capacity building, technical support and facilitating resources. These functions can be mobilised to support the integration of community safety, crime prevention and violence prevention at local level.

(See Section 10.3: Roles and Responsibilities: Local Government.)

These provincial departments play a key role in the successful implementation of the Strategy by:

- facilitating intergovernmental relations in provinces to ensure effective implementation;
- strengthening mechanisms for engagement with local government in respect of implementation;
- ensuring alignment of national and provincial policy with local government;⁴⁷
- improving the processes and mechanisms of engagement and consultation with local government; and
- strengthening mechanisms and procedures to monitor municipalities and report on performance in respect of implementation of the Strategy.

Legislation sets out these responsibilities of provincial government, which include⁴⁸ overseeing the development and drafting of IDPs. Departments responsible for local government in provinces must monitor and support the development of IDPs and ensure integration of the Strategy in IDPs.⁴⁹

- Departments responsible for local governments in provinces must
 - ensure effective provincial assessment of IDPs and the integration of the Strategy;
 - facilitate the development of standard by-laws in respect of community safety;⁵⁰
 - facilitate the provision of support to municipalities on implementation strategies; and
 - facilitate the provision of capacity building and technical support to municipalities on implementation of the Strategy.

These provincial departments must oversee and coordinate with the Office of the Premier regarding the administration of provincial support to local government.

11.5.4 Provincial Secretariats for Police Service

Provincial Secretariats for Police Service should play a key role in supporting implementation of the Strategy in the province.

These include:

The roles and responsibilities of provincial secretariats and departments responsible for community safety in the province should be clarified in respect of the execution of provincial strategies addressing crime and violence and initiating and supporting programmes and interventions in the province.

(See Section 8.1.2.4: Clarify the role of the Civilian Secretariat for Police and Provincial Secretariats in respect of crime and violence prevention.)

11.6 Municipal Manager's Office

The Office of the Municipal Manager is responsible for driving the Strategy in each municipality. To facilitate effective integration across municipal departments and effective oversight, monitoring and evaluation, the MM will need to do the following:

1. Establish capacity in the MM Office to drive implementation.

(See Section 8.4.4: Provide capacity in the Municipal Manager's Office to drive implementation of the strategy in municipalities.)

2. Ensure the integration of crime and violence prevention interventions in the IDP.

(See Pillar 6A, Section 1: Strengthened legal, policy and regulatory frameworks for sustainable community forums; Pillar 6B, Section 1: Active public and community participation in crime and violence prevention interventions; Pillar 6B, Section 4: Community safety planning is institutionalised in government.)

12 MONITORING AND EVALUATION

The Strategy sets out the process to align monitoring and evaluation systems and reporting frameworks across government (see Sections 8.1.5 and 8.1.6). By institutionalising responsibilities within sector departments and spheres of government through the integration of deliverables, action items and target dates into line function department strategic plans and integrated development plans at local level, the Strategy seeks to create ownership and to ensure that community safety is integrated into core business.

Section 8.4.1: Strengthen capacity of the department responsible for planning, monitoring and evaluation (also discussed in 11.2) sets out the following role of the department responsible for planning, monitoring and evaluation (DPME):

- To facilitate alignment of the Strategy with existing monitoring and evaluation functions.
- To institutionalise evidence-based planning by providing an institutional home with authority to engage line function departments.
- To strengthen the focus on crime and violence prevention in MTSF and integration across outcome-based monitoring systems.
- To develop a holistic Monitoring and Evaluation Framework, which will include specific indicators and measures to track progress against systems and thematic outcomes. The development of a holistic M&E framework will have to be undertaken in collaboration with the other spheres of government, including relevant line departments.
- To co-ordinate reporting of national, provincial (Office of the Premier) and local government (Office of the Municipal Manager) against the Monitoring and Evaluation Framework.
- To ensure the integration of safety, crime prevention and violence prevention outcomes within government's strategic framework.
- To facilitate the development of an integrated data and information management system and protocols for information sharing between different spheres of government.

Core components of the M&E Framework should include:

- overarching government outcomes and indicators for community safety that are integrated into the MTSF;
- monitoring and evaluation tools; and
- capacity building initiatives for government departments and spheres of government responsible for monitoring and evaluation.

The strengthening of reporting frameworks (see Section 8.1.6: Strengthen reporting mechanisms) will provide:

- clear linkages between KPIs across national and provincial departments and local government IDPs to enable coherent reporting on implementation and community safety outcomes;
- defined reporting arrangements between local and district/metro municipalities and provinces;
- aligned IDPs, municipal safety plans and Provincial Safety Strategies; and
- defined performance indicators for community safety.

The monitoring and evaluation system should be strengthened by enhanced oversight and accountability through:

13 REVIEW OF STRATEGY

The Strategy will be reviewed every five years.

14 STRATEGIC LINKS

The Strategy recognises the need for complementary interventions addressing socio-economic factors including poverty, inequality, unemployment, social welfare, health and education and the effectiveness of the State.

The following policies address some of the key focus areas identified in the Strategy.

FOCUS AREAS	POLICY INSTRUMENT	RESPONSIBILITY/ LEAD DEPARTMENT

15 COST IMPLICATIONS

Interventions proposed in the Strategy form part of existing functions performed and there are no cost implications. In case where additional capacity is required, line function departments are responsible for realigning their priorities and budgets, and where necessary engaging Treasury for additional funding. The CSPA, DCoG and provinces will assist in facilitating this as indicated in the Strategy.

Areas where additional capacity is indicated are:

- The establishment of the Centre for Community Safety, Crime and Violence Prevention
- Additional capacity in the Office of the Municipal Manager
- Additional capacity in the Office of the Premier
- Additional capacity in DPME.

- 15 Given the multiplicity of processes in government dealing with violence against women and children (DOJ&CD, NPA, SAPS), has CSPS provided a clear framework on which SAPS is basing its implementation plans and strategy? How do interventions by DOJ&CD, DSD and others integrate into this? Will the Review of the Programme of Action address this aspect and accountability arrangements?
- 16 For example, language issues re immigrants, asylum seekers and human trafficking victims; addressing discriminatory attitudes to vulnerable groups (sex workers, migrants, LGBTIQ+); improving access for persons with intellectual and other forms of disability; addressing barriers to reporting SGBV (e.g., victims turned away from police stations or referred to other police stations).
- 17 Resilience is the capacity to successfully adapt despite challenging or threatening circumstances. Strategies aimed at preventing crime and violence must include mechanisms to build the capacity of individuals, groups and communities to deal with adversity and conditions that may make them more vulnerable to crime and violence (White Paper on Safety and Security, 2016).

- 18 Provides for a process to develop this through an advisory committee of relevant role-players
- 19 Framework should recognise the interconnectedness of many aspects of the child's environment/ecologies (individual, family, peer, school, community, societal/macro-structural) with various dimensions of a child's wellbeing (health, safety, positive relationships, effective educational learning, and physical, emotional, social, intellectual, psychological and material wellbeing) covering infancy, preschool, childhood and adolescence. It should also address the needs of vulnerable children; provide for a measurable strategy through which sectors and departments are held accountable; provide wellness indicators for children to ensure a common goal; and track child development/wellness holistically.
- 20 'A safer and more inclusive society: Early childhood development investments bring about higher levels of positive self-regulation which lead to significantly less crime and greater public safety, reduced public violence, and greater social cohesion and civic participation' (pg. 21, National Integrated ECD Policy). Available at: https://www.unicef.org/southafrica/SAF_resources_integratedecdpolicy.pdf
- 21 Vulnerability is determined by context and the prevalence of risk factors (see clarification below).
- 22 Prerequisites do not fall within the scope of this Strategy.
- 23 Examples of public health approaches include the Expanded Programme of Immunisation and Vaccines, Preventable Disease Surveillance and Reach Every Community.
- 24 Resilience is the capacity to successfully adapt, despite challenging or threatening circumstances. Strategies aimed at preventing crime and violence must include mechanisms to build the capacity of individuals, groups and communities to deal with adversity and conditions that may make them more vulnerable to crime and violence (White Paper on Safety and Security, 2016).
- 25 Decriminalisation as a strategy to reduce stigma and discrimination requires a new legal framework for regulating the use and availability of substances that are currently illegal. This does not constitute legalising illicit drugs but decriminalises personal use and, as in some jurisdictions, provides other administrative sanctions supported by diversionary programmes to address addiction.
- 26 Privacy, non-judgmental treatment, elimination of punitive drug treatment approaches, and promotion of the health and rights of persons with substance addiction.
- 27 There is a need for a public education campaign to re-educate people across society about the effects of drug and alcohol abuse (similar to HIV and AIDS campaigns) to promote an understanding of persons suffering from substance addiction as people with an illness or addiction and not criminals.
- 28 Performance measures do not take into consideration the full needs of clients and are currently based on numbers. Indicators are not humane and don't address treatment requirements (e.g., they base funding on completion of services).

- 29 Objectives are to provide people with an incentive to address drug use before getting a criminal record, to increase the number of illicit drug users being diverted into education, assessment and treatment, and to reduce the number of persons being incarcerated for use and possession of small quantities of illicit drugs. <http://www.aivl.org.au/wp-content/uploads/AIVL-Paper-Harmonising-Drug-Control-Laws-with-Public-Health-Approaches.pdf>
- 30 For example, s2 DVA Act 116 of 1998 requires SAPS to assist victims of DV to access suitable shelter and medical treatment; Sexual Offences and Related Matters Amendment Act No 32 of 2007 addresses services for victims of sexual offences; and the provisions of the Children's Act and Child Justice Act.
- 31 Including but not limited to New Urban Agenda for Sustainable Urbanisation and Human Settlements (Agenda 2030) – SA response; Department of Human Settlements (DHS) policies; UISP; Norms and Standards; National Spatial Development Framework implementation protocols and spatial contracts; IUDF Implementation Plan.
- 32 Requires that planning be informed by comprehensive assessments.
- 33 Including but not limited to role of infrastructure, access to services, interventions to mitigate crime and violence and address socioeconomic conditions, the design of settlements to achieve social benefits, improved use and management of public open spaces, incorporation of livelihood strategies, improved socioeconomic conditions and environmental safety.
- 34 Includes public amenities, schools, tertiary and higher education institutions.
- 35 Avoid 'Western' concepts, which do not apply to domestic context. Don't make people conform to Western constructs or design principles/perceptions of human settlements.
- 36 E.g., role of CPFs in monitoring police performance, i.e., monitoring of police on application of legislation in respect of gun control, advocating for rights of communities and victims in respect of firearm applications and removal.
- 37 Barriers may vary and could include the exclusion of certain groups, geographical distance, poor capacity of officials tasked with public engagement responsibility, and language or cultural barriers.
- 38 See White Paper for details on what the guidelines should address.
- 39 The minister responsible for provincial and local government must develop guidelines clarifying and strengthening the relationship between different spheres of government in respect of community safety (s47 of the IGRF Act).
- 40 These are set out in sections 11 and 12 of the LGMS Act.
- 41 See detail in White Paper Implementation Framework.

43 'S47.

- (1) The Minister may, by notice in the Gazette, issue regulations or guidelines not inconsistent with this Act regarding-
 - (a) any matter that may be prescribed in terms of this Act;
 - (b) a framework for coordinating and aligning development priorities and objectives between the three spheres of government;
 - (c) a framework for coordinating intergovernmental conduct and action affecting municipal functions;
 - (d) implementation protocols;
 - (e) indicators for monitoring and evaluating the implementation of this Act; and
 - (f) Any other matter that may facilitate the administration of this Act ...

(3) No guidelines issued in terms of subsection (1) are binding on an organ of state in any sphere of government unless adopted by its executive authority.

- (4) Before regulations or guidelines are issued in terms of subsection (1), the minister must
 - (a) publish the draft regulations or guidelines in the Gazette for public comment; and
 - (b) engage in an appropriate consultative process with relevant organs of state on the substance of the regulations or guidelines.'

44 These include poverty, unemployment and inequality.

45 Section 37 IGRF Act.

46 Section 37 of IGRF Act provides that the Premier of the province is responsible for ensuring co-ordination of intergovernmental relations within the provincial government with national government and local governments in the province.

47 Section 36 of the IGRF Act requires that provinces take into account national priorities and the interests of local communities, and consult local spheres of government and affected municipalities when developing provincial policies or draft legislation affecting local government.

48 Section 155(6) (a) and (b)) of the Constitution require provincial government to monitor and support local government in enhancing the capacity of local government to perform their functions and manage their affairs, and, where necessary, to intervene in the prescribed manner. The MEC for local government in a province must establish mechanisms and procedures in terms of section 155 of the Constitution to monitor municipalities in managing their own affairs, exercising their powers and performing their functions. The MEC must also monitor the development of local government capacity in the province and assess the support needed by municipalities (s105 (1) LGMS Act). The MEC for local government must receive annual reports of municipalities (s46 (4)), and must compile annual reports to submit to the minister, provincial legislature (s47 (1)) and National Council of Provinces on local government performance (s47 (3) LGMS Act). Section 105(3) authorises the MEC for local government to require municipalities to submit any information to a specified provincial organ of state either at regular intervals or within a period specified. The MEC also has the power to intervene in situations where a municipality is not fulfilling a statutory obligation (s106 LGMS Act).

- 49 To oversee the development and drafting of integrated development plans (IDPs) by the municipalities (discussed in detail below LGMSA, Section 14(2).). The MS Act further provides a monitoring and support role for the MEC for local government in respect of IDPs: Section 31 of the LGMS Act provides for the MEC for local government in the province to: monitor the drafting processes, assist with drafting, adopting and reviewing IDPs and facilitating alignment of IDPs of different municipalities with one another and with national and provincial programmes; facilitate coordination and alignment of IDPs of different municipalities, including district and local municipalities, and with plans, strategies and programmes of national and provincial organs of state; and take steps to resolve disputes in planning, drafting, adoption or review of an IDP between municipalities. Section 32 of LGMS Act requires a municipal manager to submit copies of the IDP to the MEC for local government in the province. The MEC may request the relevant municipal council to adjust or amend the plan if it does not comply with a requirement of the LGMS Act, or is in conflict with or is not aligned with or negates the development plans of other affected municipalities or organs of state (s32 (2) LGMS Act).
- 50 'The MEC for local government, on request of organised local government in the province, may make standard by-laws concerning any matter for which municipal councils in the province make by-laws' (LGMSA s14).
